

Hankie Tissue Box Cover

Written By: Michelle Min

TOOLS:

- [Hankerchief \(1\)](#)
[big enough to cover the tissue box](#)

SUMMARY

[Watch the video on CRAFT!](#)

Here's a fun and simple project to make: a cover for your tissue box. The only thing you need to do is make three knots; basically just tie a handkerchief around the box. And it looks great!

Optionally, you can add buttons, pins, or other extra decorations for even more pizzazz!

Step 1 — Hankie Tissue Box Cover

- Put the box on the handkerchief.
- Tie up the opposite corners of the handkerchief as shown.

Step 2

- Fold one of the remaining sides of the handkerchief up to cover the side of the box.
- Then fold up the other side.
- Tie the two sides together near one end of the box as shown.

Step 3

- Tie the sides again near the other end of the box.
- Pull the first tissue out of the box.
